

TurnKey Internet Announces Black Friday 2012 Promotion

Source: TurnKey Internet

Dated: Nov 14, 2012

Cloud hosted solutions provider TurnKey Internet, today launched this year's Black Friday Promotion, offering up to a 75% discount – for life.

Building on last year's success, TurnKey has listened to its customer feedback, packed in even more value, and made deals even bigger for this year's hosted offerings. TurnKey's Black Friday Promotion has been one of the most anticipated in the industry every year. As more and more businesses move to the cloud, TurnKey Internet predicts its biggest rush yet, and is ready with expanded capacity from its recently-opened New York Datacenter.

TurnKey Internet is known for running eagerly-awaited, industry-leading Black Friday specials, and this year is no different. With the coupon code BF2012, TurnKey Internet is offering 75% off of nearly every product they offer – dedicated servers, virtual private servers, cloud servers, SEO hosting, reseller hosting, and much more. Brand new hosted services were launched this week, including the all new Root Reseller packages, expanded cloud server offerings, and lightning-fast dedicated servers powered by the all new Intel E5 HexaCore 2620. More information can be found at <http://www.turnkeyinternet.net/blackfriday> (<http://www.turnkeyinternet.net/blackfriday>).

“Last year's special was an epic success, and customers told us what they wanted to see even more of,” remarked Adam Wills, CEO of TurnKey Internet. “We super-sized the value of our cloud services and introduced several new products, just in time for this promotion. We are happy to offer deals like this to our clients; we want them feeling like shopping TurnKey's Black Friday Specials are well-worth their time and effort – two commodities we find positively invaluable.”
