TurnKey Internet, Inc Launches Refer A Friend Program for Black Friday 2016

LATHAM, NEW YORK (November 21, 2016) – Leading Datacenter and Cloud Hosting Solutions provider TurnKey Internet, Inc. announced today the launch of their all new Refer-A-Friend program combined with the launch of their 2016 Black Friday Deals offering some of the best cloud servers, dedicated servers, and web hosting offers for 2016.

The Refer-A-Friend program provides an incentive for our valued clients who already tell their friends and colleagues about the great service they receive every day with TurnKey Internet's Cloud-Hosted services. An easy 1-click referral link is provided to clients that can be sent via email, social media, or placed on web sites, blogs or newsletters to automatically earn a \$50 service credit. Launching this program at the start of the annual Holiday seasons helps increase the rewards for existing clients who participate.

TurnKey Internet is known for running its eagerly-awaited, industry-leading Black Friday specials, and this year is no different. TurnKey Internet is offering up to 95% off for the life on nearly every product they offer – cloud servers, disaster recovery backup services, cloud storage, dedicated servers, virtual private servers, cPanel web hosting, Microsoft Windows web hosting, enterprise colocation services, SEO optimized web hosting, and much more. More information can be found at <https://turnkeyinternet.net/holiday/> .

In a bold move in contrast to other companies that exclude or limit their best seasonal deals from existing clients - TurnKey is rewarding existing clients with a loyalty bonus. The loyalty bonus is applied as a free month of service for every previous year of loyalty when purchasing any new services during this Black Friday promotional period. This gives existing clients access to deals greater than 95% off when factoring in the free loyalty bonus months of service included.

“We love our loyal clients and I’m truly excited to expand our loyalty bonus and launch of our Refer-A-Friend program during our Black Friday promotion.” Remarked Adam Wills, CEO of TurnKey Internet. “While most companies offer only their best deals to new customers, we shake up that model and put the customer first. TurnKey is focused on

giving back to our loyal clients – and in turn they are our best advocates telling friends and colleagues about their experience. We have launched the Refer-A-Friend program specifically to reward those efforts by our loyal clients.“
